

WoWV Window on Work Values Profile

Values have a major influence on how individuals approach their work. They drive our decisions, cause us to defend what we believe in and determine our behaviour.

The alignment between personal and organisational values can have a significant effect on the behaviour of individuals and teams. The Window on Work Values model describes eight core value types that impact how we behave at work:

- Individualism
- Independence
- Empowerment
- Authority
- Compliance
- Equality
- Collectivism
- Conformity

The **Window on Work Values Profile** (WoWV) can assist people and teams to understand what their values are and how they influence their behaviour at work.

While the WoWV focuses on individual values, to rate their perceptions of the core organisational value types and provides a work values hierarchy. This data enables teams to identify the alignment between personal and organisational values and explore possible implications of any misalignment, such as conflict, disengagement and poor individual or team performance. Once the core values are identified, the team or organisation can begin developing its own Team Values Statement and Team Charter

Online Profile and WoWV Hub

Once the WoWV Questionnaire is completed online, learners can access their WoWV report immediately, via their personalised WoWV Hub.

The WoWV Hub includes online simulations, applications, activities and e-books, which enable them to explore their work value preferences in more detail. The Applications offer learners a unique way of engaging and interacting with their Profile results and allows the feedback experience for each individual to be personal and meaningful.
